Washington, Nov. 12.—America today turned toward the way of peace. With the military strength of the central powers shattered and hostilities ceased, the terms of surrender that preclude a renewal of the great struggle the United States with the associated governments today took up the problems of reconstruction.

Immediately ahead, however, diplomatic Washington saw the peace conference—the world's court of justice before which Germany as the chief criminal with Austria, Turkey and Bulgaria will stand as prisoners at the bar. When or where the final peace negotiations will be held, officials would not conjecture. Thirty days is the time allowed under the armistice terms for assembling the peace conference. The armistice, however, includes a provision for its extension. The great interests involved, the many governments and nationalities concerned and the difficulties to be met in convening such a conference in a short time may cause an extension of the thirty days limit. It was regarded as likely that the peace conference will be similar to the meeting at Versailles where the armistice terms were formulated. The victors, meeting separately, probably will decide upon terms and then the defeated be permitted to enter pleas of moderation.

The military losses today to the bringing up and return to civilian life of the great army mobilized in the past 19 months. Further increase of the military forces was checked yesterday through cancellation of all outstanding draft calls. The return home of the (Continued on Page 2, Col. 2)

Emperor of Austria Abdicates, According to Priv-

to Sweden.

ASSOCIATED PRESS TELEGRAM

London, Nov. 12.—(8:46 a. m.)—Emperor Charles of Austria, has abdicated, according to a Copenhagen dispatch to the Exchange Telegraph company, quoting private advices from Vienna.

It is reported that a general strike will be declared in Vienna tomorrow.

Victor Odler, leader of the Austrian Socialists and foreign secretary in the German-Austrian cabinet, formed at Vienna on October 31, is dead, it is reported.

The abdication of Emperor Charles has been rumored several times in the past two weeks, but none of these reports have been confirmed. On October 29 it was reported that he had fled from Vienna, but this report was denied by a Berlin newspaper, which said he was at the Austrian capital on October 30 and that he had been cordially received by the people while going about the city. The most recent report in connection with Emperor Charles was received on November 2 when it was said that he had announced his intention to abdicate.

With the American Forces in France, Monday, Nov. 11.—Orders announcing that the armistice between the allied powers and Germany had been signed and giving directions as to the future conduct of allied soldiers along the line were sent to every corps this morning.

They were transmitted to the units in the front ranks. The order follows:

"I—You are informed that hostilities will cease along the whole front at 11 o'clock a. m., November 11, 1918 (Paris time).

"No allied troops will pass the line reached by them at that hour in date until further orders.

"Division commanders will imme-
diately sketch the location of their front line. This sketch will be returned to headquarters by the courier bearing these orders.

Washington, Nov. 12.—The nation's obligation and opportunity to serve stricken humanity in war torn Europe by helping to provide sustenance until the next harvest will demand further sacrifices of the American people, Food Administrator Hoover declared today in an address at a conference here of State Food Administrators.

Conditions of famine exist in Europe, Mr. Hoover said, that will be "beyond our power to remedy," even with the carrying out of the plan to ship from America twenty million tons of foodstuffs during the next year. In northern Russia alone, the death toll among forty million people who have put little chance of obtaining food this winter. Millions of others throughout Europe he said, who can be reached must be fed.

"This being the new world situation, created by the collapse of the war," Mr. Hoover continued, "the prime changes in our policies on today's outlook can be summarized.

"That we may not advantageously abandon the use of substitutes in our white bread; that we will still require economy and elimination of waste in its consumption; that for the present we need conservation in butter and condensed milk; that ultimately we must extend this to all the facts."

"We can contemplate at the most maintaining fully three pounds per month of sugar per person of house hold sugar and on the present out-look, and we can by the availability of Java sugars to Europe begin at once to relax more restraints on sugar rending some change in European policies.

"There are special features of changes in policy, but the shifting of conservation from one commodity to another is not the whole policy. There is one policy which cannot change, and that is the vital necessity of simple living, to economy in all consumption for commodities more or less substitute for each other. We must realize that the spectre of famine abroad now hunts the abundance of our table at last."

"We have now to consider a new world situation in food. We have to frankly survey Europe. A Europe of which a large part is either in ruins or social conflagration, a Europe which degenerated soils and depleted herds; a Europe with the whole of its population on rations or varying degrees of starvation and large numbers who have been under the German heel actually starving.

"The group of gamblers in human life who have done this thing are now in cowardly flight, leaving anarchy and famine to millions of helpless people.

"The war has been brought to an end in no small measure, by starvation to self and it cannot be our business to maintain starvation after peace."

"We must consider carefully how this situation reacts upon our people. (Continued on Page 2, Col. 4)

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, actually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

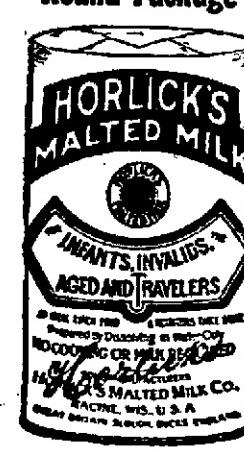

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosty feet—cold of the chest (it often prevents pneumonia). It is always dependable.

GERMANY MAKES APPEAL TO U. S. TO SAVE HER PEOPLE FROM HUNGER

(Compiled from A. P. Dispatches.)

Defeated on the battlefield, deserted by their emperor and subjected to terms tantamount to unconditional surrender, the German people have made an appeal to President Wilson. Conditions described as "fearful" prevail and Dr. W. S. Self, the foreign secretary says in his appeal that millions face starvation if the allies do not take steps to overcome the danger.

Mutinous sailors who are in control of most of the units of Germany's navy may, even at this late date, risk battle against the allied fleet rather than surrender their vessels under the terms of the armistice. Whaleship messengers to the various units have been picked up, calling upon the men to defend the country against the "enormous presumption."

The message directed that the units assemble in Sussnitz harbor on the east coast of the island of Ruegen, off the Prussian coast.

Holzberg is said to be preparing to intercept William Hohenlohe and his son, the former crown prince, as well as other military officers who sought refuge with them by crossing the Dutch frontier. This action may prevent the former emperor from returning to Germany, should events take a sudden turn, and following the example of Napoleon in 1815.

Allied warships have entered the Dardanelles and British naval forces have occupied Alexandria.

Field Marshal von Hindenburg, who was reported to have fled to Holland with his royal master, has joined the revolutionary forces. He has asked the soldiers' and workmen's council to send delegations once to main headquarters.

Everywhere in Germany the moment the revolution began, the old regime out of power seems to be increasing. The great Rhine-Westphalian industrial region is in the hands of the reds, while Potsdam and Doeberitz have surrendered to the forces

which have taken over control in Berlin.

There are evidence of friction between the military authorities and the soldiers and workmen's council in many towns in northern Germany, the authority of the latter being questioned. It is reported that civil administration has been provisionally organized where there is any danger of a conflict between parties.

British forces reached Mons, Belgium, before the hour for the cessation of hostilities. This city has a sentimental interest to all British subjects, for it was there that "Kitchener's contemptible army" had its first real baptism of fire in 1914.

The Americans closed the campaign in France by capturing the village of Stenay.

It is asserted that by supplementary declaration to the armistice, it was agreed by Germany that in case the vessels stipulated in the armistice were not turned over within the specified time to the allied powers, the island of Heligoland might be occupied as an advance base to enable them to enforce the terms of the agreement.

When the last shot was fired the allied battle line from the Dutch border to Switzerland was approximately

as follows: The frontier of Holland north of Selzate to Ghent to east of Audenarde to Grammont to east of Mons, east of Maubeuge and thence east of the French-Belgian border to north of Berchem. Then the line was along the Meuse to Mezieres to Sedan and across the river in the region of Stenay. Then southward south of Montmedy and northeast of Verdun to the Moselle, near Pagny, northeast of Pont-A-Mousson. The line then paralleled the Lorraine frontier to west of Marche when it entered Alsace, whence it ran southeast to Switzerland on a line about 20 miles west of the Rhine.

France had been entirely cleared of the invaders except for the narrow strip of territory from Meuse to Alsace.

nearly two and a quarter million men overseas and the mustering of the million and a half troops in camps in this country will not come immediately. The United States entering the war last probably will be called upon to do more of the fighting and guard duty in France and Belgium. Future events in Russia are uncertain and the small force there may have to be augmented. Transport facilities are more or less limited. Embarkation of additional units will not stop immediately. Secretary Baker has said, although the troops to be sent overseas largely will be medical and similar units.

Government control of the railroads, while insured for 21 months longer, must be decided as to permanency or abandonment as well as the control of the telegraph and telephone system. Supervision of food and fuel distribution and the fixing of prices for necessary commodities are other problems of reconstruction.

With the war behind and peace ahead, government officials today in no wise discounted the tasks of the future. The great problems of war, questions of peace and reconstruction.

CELEBRATION CONTINUES.

Boston, Nov. 12.—Massachusetts celebration of the signing of the armistice which started hours before daylight yesterday was continued with undiminished fervor today with the observance of "Victory Day," proclaimed by Governor McCall as a holiday.

runners were used in carrying the orders and so well did the big machine work that even patrol commanders had received the orders well in advance of the hour. Apparently the Germans also had been equally diligent in getting the orders to their front lines. Notwithstanding the hard fighting they did Sunday to hold back the Americans, the Germans were able to bring the firing to an abrupt end at the scheduled hour.

The staff and field officers of the American army were disposed early in the day to approach the hour of eleven with jaded activity. The day began with less firing and doubtless the fighting world had ended according to plan, had there not been a sharp resumption on the part of German batteries. The Americans looked upon this as wanton useless. It was then that orders were sent to battery commanders for instant ceasefire.

No messages covering the question had been received up to 1:30 o'clock this afternoon by the local board.

Although there was no reason for it, German ruthlessness was still rampant Sunday, stirring the American artillery in the region of Dun-Sur-Meuse and Moussey to greater activity. Six hundred aged men and women and children were in Moussey when the Germans attacked it with gas. There was only a small detachment of American troops there and the town no longer was of strategical value. However, it was made the direct target of shells filled with mustard. The enemy hurled them into the town until every street reeked with gas.

Not content with this, the Germans again drenched the place with gas last night even while they were evacuating Steenv, a few miles to the north. Prompt work by the Americans saved most of the civilians from serious consequences.

Poorly clad and showing plainly evidences of malnutrition the inhabitants crowded about the Americans, kissed their hands and hailed them as deliverers.

They declared they had no need for six weeks. They virtually had been prisoners of war for four years and were overwhelmed with joy when they learned that armistice was signed. The little children, between 6 and 10 years, spoke German alternately with French. It was the first time they had seen Americans and they showed plainly their amazement.

FOOD SACRIFICES

(Continued from Page 1)

We must consider our national duty in the matter and we must make such changes in our policies as are fitting to the new situation. The matter of prime importance to us is how much of each commodity the exporting countries can furnish between now and next harvest and how much is necessary to the importing countries in which we have a vital interest, in order to maintain health and public order in the world.

A computation on this basis shows, Mr. Hoover said, this situation until the next harvest.

A shortage of about 3,000,000,000 pounds of meat and dairy products and vegetable oils, one of the chief items of about 3,000,000 tons. Of beef, there are sufficient supplies to load all refrigerated ships' capacity, and there will be enough of other foodstuffs provided the utmost economy is practiced by the American public. Although sugar that will be available is ample for "normal consumption here, if either nations retain their present short rations, any increase in Europe will create a world shortage. There is a surplus of coffee, North America. Mr. Hoover said, will be furnished sixty per cent of the world's supply of foodstuffs and the United States and the West Indies will be able to export 29,000,000 tons as against a pre-war normal of 6,000,000 tons.

The food policy of the United States has contributed to this ability to increase shipments. Mr. Hoover asserted and the nation should be particularly congratulated on two measures taken—guaranteed price for wheat and maintenance of the price of hogs to the farmer through export control, thus stimulating production and lessening the world shortage of fats to some degree. There will be shortage under the normal world supply of fats for two or three years and pork productions must be maintained. Of America's export possibilities in fats, the largest items will be pork products, Mr. Hoover said.

Mr. Hoover told the state administrators that the food administration will be discontinued under the law when peace is proclaimed, and adds: "I do not expect to see its renewal."

"I look now," he said, "for a turn of American food trades towards conservative and safe business."

Want to Feel Just Right?

Take an NR Tonight

JUST TRY IT AND SEE how much better you feel in the morning. That "loggy" headache, tired, don't-know-what-to-do feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And what a relief! You'll be surprised to find how much better you feel every day. It habitual or stubborn? Try the one NR Tablet each night for a week. Then you'll have to take the medicine every day. Just an occasional NR tablet is sufficient to keep you strong and in good condition—keep you feeling your best.

"There is one remedy I always keep in the house, and that is Dr. Caldwell's Syrup Pep- sin. It helps my digestion wonderfully and as a laxative it is pleasant and dependable." (From a letter to Dr. Caldwell written by Mr. J. N. Kidd, Bells, Texas.)

From youth to age the greatest menace to health is constipation, which retards digestion and disturbs the entire organic system. To relieve constipation a mild laxative, such as Dr. Caldwell's Syrup Pep- sin, is preferable to drastic cathartics and purgatives, the violence of which shock the system unduly.

THE WASTE BASKET.

Waste paper is in the minds of most people a synonym for worthlessness. Yet the scarcity of paper has caused an advance in price of about 300 per cent. It lays its heavy tax on every office, every newspaper, every magazine, every home.

The need of paper conservation has been drilled into the public mind for two years. Most people do save their old newspapers now. These are collected by junk men and church societies. Had it not been for this use of old materials, the scarcity would have been far worse.

But another source of economy is scarcely touched. It is the waste basket. In many large establishments, business men have installed balers to pack the material together in salable and transportable form. That is not usually practical for the home to do. Most people still look at the waste basket as of no use to anyone, and burn it up quickly as possible. In some towns they pay to have it carried to the dump. Many business men annually burn up tons of valuable paper that gathers in their waste baskets. Circulars and letters and newspapers and other wrappers accumulate very fast.

Yet it would take but three minutes to empty a waste basket of those odds and ends, packing them between half opened sheets of newspaper, and then tying them up in bundles. The value of a waste basket full seems small. It is sizable for not over two to five cents. But if all the waste basket of the country could be emptied in this careful way, our paper shortage would nearly disappear.

We are apt to say, the amount I personally can save amounts to nothing. Little drops of water are very small, but they make the ocean. Only by a willingness of everyone to co-operate and save, can we avoid the costly shortage in the materials we need for daily life.

UNITED WAR WORK FUND.

The union of seven of the agencies that supply comfort to the soldiers at the front and at the cantonments, is one of the finest developments of this war. It seems as if the golden age had come to see Protestants and Catholics and Hebrews and Salvation Army forgetting their sectarian differences, and joining harmoniously in one common and glorious cause.

The campaign to raise \$170,500,000 for the various war work funds is organized to put some home comforts and touch of friendliness within reach of everyone of our 5,000,000 men now under arms. Thus we are spending only about \$3.50 per man on the boys who are sacrificing their all for us.

Isn't it worth \$3.50 to this country that a soldier shall risk his life and endure untold suffering for the protection of us in our comfortable homes? Licking county's share of this war work fund will be paid out of the Licking County War Chest to which the people contributed so liberally.

The proper place for the Hun is not "at" the peace table, but under it.

SUPPLY OF MEAT.

A woman was telling the other day about buying meat at a large city market. She had not had any beefsteak for a long time, and thought she would blow up on one good dinner. When she looked at her bill, it charged \$1 a pound for her beefsteak. While butcher's shops have not generally reached that mark, many of them come close to it.

People are asking how long after the war these prices will keep up. They can't come down immediately. A big force will have to be kept under arms for a year or two to see that the Hun settles down to business and behaves like a human being. That army must be fed.

The animal herds over large parts of Europe have been slaughtered. Europe will be very hungry for a meat diet, though is a question how far they will be able to raise money to pay the price it is likely to cost.

Then there is poor helpless Russia, practically starving to death. We shall not feel the enthusiasm in helping the Russians as if they had shown some decent spirit of loyalty to their allies. But we shall want to give them some assistance, to prevent them from turning to the Germans for support. Russia is normally one of the great food producing countries of the world. If its people are not utterly sunk in folly and idiocy they should soon be able to feed themselves rather than call on us for help.

We have 90,000,000 hogs this year, where a year ago we had but 60,000,000. In part that increase is due to the extraordinary prices. But the farmers have learned that they can make an additional profit by keeping more farm animals, and probably they will keep on doing so. Prices will not probably ever go back where they were when great herds of cattle roamed the untenanted west. But the cost of meat ought to go way below present figures.

WAR COMFORTS CAMPAIGN.

It is not enough to arm and clothe the soldiers, and provide them with all the munitions and engines of war. They are not mere machines. They are human beings, our own dearest ones who are suffering and dying for us.

The Christian Associations, Knights of Columbus, Jewish Welfare Board, and other organizations for which the war work canvass is now to be made, are absolutely essential to the success of our armies as a fighting force. Morale is everything on the battlefield. The soldier who is lonely, homesick, disengaged, is a poor fighter.

But you take him down to one of the huts where brave and self-sacrificing fellows will see that he is warmed and fed and cheered up, and he is another man. The men come in almost weeks after the strain of fighting and the sight of suffering and death. They are unstrung and not masters of themselves. The transformation wrought in the huts is something marvelous. The handshake, the comradeship, the cheerful bit of music, the word of counsel and friendship, these tone a man up and he is himself again. Now he can go out and fight.

The work of these organizations is not merely of great military value, but it keeps the men up to a high moral standard. Formerly wars were demoralizing to the character of the soldiers, and many of them returned forever corrupted by enfeebled vices. The various huts stand for the clean, manly soldier life, and they will return our boys to us physically and morally better than they were when they left. The sum asked for is \$17,500,000. Licking county's share will be taken from the War Chest.

Let us hope that after the war the labor boards keep up their good work, and that no longer shall crops spoil for lack of help while in the cities abode men sit on the park benches.

The people who complain about the unsatisfactory stock of Christmas gifts the stores offer, are usually the same ones who wait until the last moment to buy them when the stocks are almost sold out.

It appears that the President's salary is not to be taxed, but no doubt some enterprising solicitor for the war funds will see that he is touched up for an equivalent amount.

The more we hear about those futile attempts on the life of Lenin and Trotsky, the more we understand the deplorable results of failure to teach marksmanship.

I have often said I would never recommend medicine of any kind. I believe that the "doctor's" place.

However, after the hardest political campaign of my life, without a chance for a vacation, I had been startin' to court every morning with the rheumy, tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the pure food and drug industry, I was at first loath to try an advertised remedy, but after advising with one of my medical friends, I gave it a test. The results have been so beneficial in my own case, I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now 65 years of age and I feel that a remedy which will build up the strength and increase the power of endurance of one of my age, should be known to the world.

Senior Mason's statement in regard to Nuxated Iron was shown to several physicians who were requested to give their opinions thereon.

Gentlemen:

I have often said I would never recommend medicine of any kind. I believe that the "doctor's" place.

However, after the hardest political campaign of my life, without a chance for a vacation, I had been startin' to court every morning with the rheumy, tired feeling one cannot describe. I was advised to try Nuxated Iron. As a pioneer in the pure food and drug industry, I was at first loath to try an advertised remedy, but after advising with one of my medical friends, I gave it a test. The results have been so beneficial in my own case, I made up my mind to let my friends know about it, and you are at liberty to publish this statement if you so desire. I am now 65 years of age and I feel that a remedy which will build up the strength and increase the power of endurance of one of my age, should be known to the world.

Yours very truly,

Wm. E. Mason.

GRANVILLE COMBINED SOLEMNITY WITH JOY OVER END OF THE WAR

Program Carried Out in Village Lasted All Day and Gave Thought of Future as Well as of Present—Community Sing was Feature of Celebration.

Special to the Advocate.

Granville, Nov. 12.—Three phases of feeling marked Granville's celebration of Nov. 11, the greatest day in the world's history, the first expressed by noise and clamor and movement, the second by a thoughtful and prayerful consideration of the difficult problems yet to be solved, the third, the peaceful "End of a perfect day," as expressed by the community sing and band concert on the Postoffice plaza.

Yesterday's celebration has called forth one opinion and that is, that Granville is most fortunate in her war mayor. A man of the physical, intellectual and moral calibre of Major Coons, too seldom finds time to administer the affairs of a small municipality on a purely nominal salary, while giving up a 100 per cent efficiency as the head of an important department in the university and as head (until recently) of a county draft board. The physical factor in this trio is mentioned as furnishing not only the endurance for his threefold task, but also the voice of unusual power, which carried his message to the outermost fringes of the crowd on Broadway yesterday. There was nothing cut and dried about his address, which in its brevity, eloquence and forcefulness might be included among the "little classics" of oratory.

The flag raising on Sugar Loaf, with Mayor Coons presiding, was one of the rare privileges occasionally enjoyed by the Granville public, when with thoughts uplifted and the being permeated with the beauties of the scene, the audience listened to words of wisdom and admonition. The program opened with music by the college band. Prayer was offered by Rev. B. F. Crawford of the Methodist church; Flag raising by the S. A. T. C. "Star Spangled Banner" by the Band; An address by Lieutenant Debel, Commandant of the Student's Army; "America the Beautiful," the Band; Address of President C. W. Chamberlain, Hon. John S. Graham, and the closing number, the "Battle Hymn of the Republic."

For the evening's program Managers Austin and Case offered the Opera House and anything it contained. The broad landing at the entrance was used as a stage on which was placed the piano, used as accompaniment for R. W. Soule's song, "When the Boys Come Home" by Oley Speaks. Mr. Soule has achieved the difficult accomplishment of our door singing and his voice was as sonorous and as natural as on an indoor stage. Mr. Henry at the piano and the Misses Wunderkindt and Young playing the violin obligato furnished a charming accompaniment. Director Eschman was happy in his selections although handicapped by the desertion of three or four of his band solo players. The singing was thoroughly enjoyed and Prof. Eschman promises more along this line.

The largest single unit which was mobilized for the patriotic parade Monday, was that of the Granville war mothers, second in numbers only to the student army, which headed by their band acted as escort. A hundred perhaps more, of these women in uniform service flags, were accorded chief honors of the day as having sacrificed more than any other class of people in the nation, next to the boys themselves.

The Red Cross, with ranks depleted by those marching with the home

made a fine appearance headed by Mrs. Ray and her official directors wearing the red and the blue head coverings, and her motor unit, in uniform represented by Miss Lillie Guckert.

The A. F. F. W. numbering many mothers among their works showed a fine formation, their numbers reinforced by members of the Brushy Fork, Hayes Distinct and Welsh Hills units, although chairman, Mrs. Biggs marched with the mothers, and the vice chairman Mrs. Ray, with the Red Cross.

The Council or National Defense which is called the clearing house for women's war work of all sorts, was headed by its chairman, Mrs. Austin Case, and a member of its executive board, Mrs. George H. Reece. An attractive feature of this unit was the appearance of its child welfare committee, over twenty young mothers wearing becoming tricorne hats in the national colors, and each accompanied by her own little ones, either on foot or in patriotically decorated perambulators. The food committees of this unit were represented by Mrs. Swartz, her captains and lieutenants; and Prof. T. A. Lewis and his war garden helpers, W. A. Barnes, A. P. Nichols, Burton Case, Eri Shumaker and August Oderecht.

The Kings Daughters headed by Miss Little Jones and Mrs. H. D. Schieldt; the Daughters of Veterans by Mrs. Ernest Shanderson, the D. A. R., Mrs. E. P. Cook, are but a few of the score or more organizations lined up, a thousand strong to show their joy on this glorious occasion.

Miss Mamie Lloyd, director of junior Red Cross work, headed a delegation of junior Red Cross workers.

All kinds of rare and valuable flags were displayed Monday, conspicuous among them being the one bearing 13 stars hung from the E. J. Torsey residence in Broadway.

Mrs. Charles B. White who appeared in the parade was enveloped in the folds of a real "Old" Glory, which carried twenty nine stars. Mrs. White's father, Dr. Edwin Sennett was a captain in the Civil War, and the old flag bore the marks of participation in many a patriotic occasion.

Mrs. R. W. Soule will entertain the Women's Music club at her home in Broadway, West, Wednesday afternoon, the ban being lifted at noon on that day.

The Council of National Defense, Women's Committee, will meet Thursday afternoon at 3:30 o'clock. Those who have done their war work will be furnished certificates and pins in request. The state committee will send cook books with tested recipes for ten cents each, which have sold elsewhere at five dollars. Messages from the state board have been received which will be of interest to the members.

Messrs. Deming and Austin who had planned to motor to Indianapolis Monday, postponed their trip in order to celebrate in a patriotic manner in their home town. They left this morning.

Mrs. Chester Cleland of Cleveland with her little son, has arrived in Granville where she will spend the winter with her mother, Mrs. Christine Cook in West College street.

James Thompson Jr., en route from Oklahoma to the east on business, stopped in Granville yesterday at the home of his father Dr. J. D. Thompson.

was taken to the home of her parents, 62 Allen street, where the funeral will be held Wednesday at 2 o'clock.

Rev. Emery Walters will officiate. Interment will be made in Cedar Hill.

The "Sister" Age.

I hope that the modern schoolboy is not carrying the new seriousness of life to the point of pigheadedness, though I must say I was rather alarmed by a conversation I heard on a bus yesterday between a boy of perhaps fourteen, who had apparently been escorting his sister of a year younger from the station on arrival from school. He was talking about some friend of his.

"Yes," he said, "he's awfully boorish still, though he's twelve now, and I don't care for him very much. As I tell him, at his age he ought to be getting more serious." His sister dutifully agreed; but I was relieved when she added: "I can tick you all to bits at tennis now!"—Westminster Gazette.

Here is the Real Reason

Perhaps you cannot tell why Every Day Milk is so good, or why your children like it so well, but the real reason is that it is so rich and creamy.

Its fine flavor never varies. It is the same day after day, every day, the whole year round.

A pint (16 oz.) can of Every Day Milk contains as much cream as there is in two and one-half pints of milk of high commercial grade.

Good, fresh, full cream milk, scientific skill in its handling, long experience and adequate equipment are necessary to furnish you such delicious milk. It is because we meet these requirements that Every Day Milk reaches you so rich in cream and so perfect in condition every day.

PROMINENT MEN ARE GUESTS OF THE ROTARY CLUB

The ban on clubs and public gatherings having been lifted, the Rotary club met today at the Masonic temple for the first time in five weeks. Federal Manager Galloway and his staff who reached Newark at 11 o'clock, were guests at the luncheon and Mr. Galloway spoke briefly of the railroad's problems during the period of the war.

Rev. Don D. Tullis, former pastor of the Second Presbyterian church, stopped in Newark today to attend the Rotary luncheon. He is on his way back to Free Haven, N. Y., Kas., having as a Y. M. C. A. secretary, accompanied a trainload of soldiers from Kansas to Camp Mead, near Baltimore. Mr. Tullis was in Washington yesterday and heard President Wilson's address before the joint session of congress yesterday afternoon.

Other speakers at the Rotary meeting were: Mayor H. A. Atherton and Mr. Fitzsimmons, brother-in-law of A. E. Willert, who though an American citizen has seen active service with the Canadian army in France. Mr. Fitzsimmons talks well and he gave a very interesting story of some of his thrilling experiences in No Man's Land and of his life in the trenches of France.

Chicago Live Stock.

Chicago, Nov. 12.—The live stock market here has been declared closed until Thursday by the live stock exchange, it was announced today, owing to the cessation of business yesterday and the expected congestion of the next few days.

Only those cars that were loaded before the embargo notification were received will be carried through the market by the railroads. As the result of Sun lay and Monday, shipments to the stock yards, 28,000 cattle, 51,000 hogs and 12,000 sheep were posted to arrive before the close of Monday. Estimated receipts for today were 10,000 cattle, 20,000 hogs and 10,000 sheep.

Commission men, it was said, were advising their customers to curtail shipments of live stock until the situation here settles down.

Chicago Grain and Provision.
Chicago, Nov. 12.—Corn advanced in price today despite the fact that fighting with Germany had stopped. Opening prices, which ranged from 2% to 1% advanced with November 1.7 to 1.9 and January 1.9 to 1.20% up to all around and then something of a reaction.

Oats took an upward swing with corn. Trade was fairly active after opening 4¢ lower to 1¢ advance, with December 63¢ to 70¢, the market made a moderate general gain, and then sagged back.

Provisions as well as cereals went up again. Demand, however, was not of urgent character.

Wall Street.

New York, Nov. 12.—The market proceeded further to adjust itself to "bearish" condition during the busy morning, sales to noon approximating 600,000 shares. Wall stocks made partial recoveries, sufficient to considerable regularity. Railers and copper reacted 1 to 2 points but in a few noteworthy instances additional gains were made. Unemployment became general. Mexican Petroleum replaced its early gain of three points with an extreme reversal of 3%. The most reassuring feature was the continued strength of international bonds. Anglo-French 5's and United Kingdom 5's gained 1 and 1½ points, respectively.

CHRISTIAN SCIENCE LECTURE.

Today when the whole world is rejoicing over a righteous victory and peace, it were well for us to turn our thoughts within and see to whom we are grateful—if it is to God we are giving the praise, for in the words of the Bible "Thine, O Lord is the greatness and the power and the Glory and the victory." Christian Science is teaching mankind that without a knowledge of God, love can accomplish nothing. It also is teaching how this knowledge may be made practical and help both soul and mind.

John W. Dooley, C. S. B. of Leeds, England, will conduct the board of trusteeship of the mother church, the First Church of Christ, Scientist, Boston, will talk on the subject of Christian Science tonight in the high school auditorium at 8:15. You are cordially invited to attend. 11-12-11

the intention of burying one Bill Hohenzollern. Ahead of them all marched a member in black carrying a sign reading, "We've got the Kaiser, Harris won't have him for fertilizer, they don't want him in hell, so where in hell will we do with him."

"I have been regularly nominated and elected to the office of secretary of state of Ohio by the popular vote of the people."

"I have acted on the advice of eminent council on the issue that has been raised. I am entirely satisfied with my position."

James W. Faulkner, Columbus correspondent of the Cincinnati Enquirer, says of the secretary of state situation:

"Don't for a moment think that there isn't grief ankle deep in the Capitol and elsewhere among the Democrats. There is and will be, too, in the office in the Attorney General's office

and in their walking papers and so will State Treasurer Chester Bryan's outfit. But in the Department of State over which William Duane Fulton presides, hope stays on. This is due to the remarkable action of Judge Harvey C. Smith, of Zanesville, who failed to resign from the bench before election day. The statute provides that no votes cast for the occupant of a judicial position for an officer other than one within the judiciary shall be counted. The truth is that the judge thought he was going to get kicked and wanted to hold the dead old job and to wait for better days.

"Now he's going to hire a bunch of highly intellectual lawyers to prove that a Probate Judge is not a Judge at all in the eyes of the law. They'll get up such a brief and will talk to the Court for hours to prove that the law and the constitution never had the slightest notion of embracing the Probate Court within this inhibition.

"If the Court holds against Harvey the office will remain within the loving embrace of Mr. Fulton, who remains until his successor is elected and until there is a special election on that last word. In the Supreme Court the Democrats lose Justice Oscar Newman, so the bench now is four Republicans to three Democrats."

PENT-UP JOY

Judge Harvey C. Smith believes he can qualify as secretary of state, the position to which he has been elected. In, he said:

"I have been regularly nominated and elected to the office of secretary of state of Ohio by the popular vote of the people."

"I have acted on the advice of eminent council on the issue that has been raised. I am entirely satisfied with my position."

James W. Faulkner, Columbus correspondent of the Cincinnati Enquirer, says of the secretary of state situation:

Every Day Etiquette

"How may my engagement be announced?" asked Jane.

"There are a great many ways of announcing an engagement," replied her older sister. "A girl usually tells her near relatives and friends of the fact either by notes or personal calls. Dinner parties are often given by the parents of the bride to be. At these the news is either hinted at or the table decorations or sprays upon the guests as a surprise before the meal is over."

THE WORLD SEEKS BRIGHT

The war is over—Peace for everybody is in sight—Everybody is light-hearted and glad, with big hopes for the future—The influenza is gone—Business has again resumed its normal channels—Schools are opened and we are glad again to move ahead with our old time enthusiasm.

You can see on everybody's face a feeling of better times ahead. We are going into the big Holiday period of the year—So start early to avoid the crowds that will be doing its shopping soon.

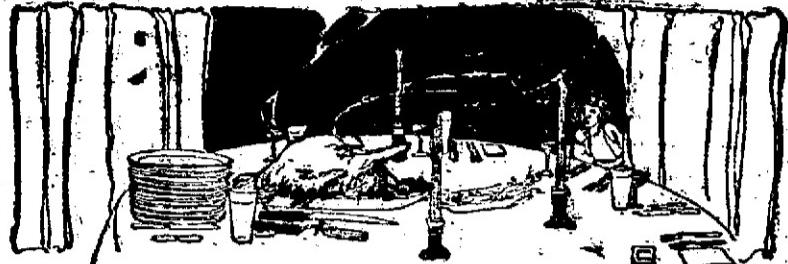

TWO HOLIDAYS ARE JUST COMING

Thanksgiving this year means much to every one of us, if plans carry through as they look now. Christmas is just ahead, and we must make Christmas, 1918, the biggest and best we have ever had. Everything will help us with these two great days. Things are coming our way.

IT'S JUST SIX WEEKS UNTIL CHRISTMAS

And we are urging you every week to join in with the government plan and start your Holiday buying early. They expect a big Christmas this year and want to avoid a congestion of trade. So to avoid crowding, we have been asked to do our Christmas business in November and December.

THANKSGIVING TABLE LINEN

With our Christmas stocks on display so early this year; you've an unusual opportunity of more than the ordinary selection to choose from, and the increasing scarcity of linens makes it advisable for you to select before the rush of the holidays is on.

Two-Yard-Wide Mercerized Damask, 90c Yard.

A pretty quality and 12 different patterns to select from.

A Heavy Damask at \$1.50 Yard.

Two yards wide, in stripes, florals and assorted dots.

Part Linen-Damask, \$1.75 Yard.

Two yards wide, eight pretty patterns to select from.

All Linen Damask, \$3.00 and \$4.00 Yard.

Beautiful quality and patterns in stripes, florals and snow drop patterns, with wide fancy borders.

Large Pattern Cloths, \$3.50 Each.

A heavy linen finish cloth in florals and dots, size 66x86.

70-Inch Square Cloths, \$2.95, \$5.00 and \$6.50 Each.

Pretty satin-finished cloth with border all round the cloth. It's only necessary to hem the ends and these are ready for use.

Pure Linen Round Cloths

Finished with scalloped embroidered edge, 2-yard size. Prices \$7.50, \$8.50 and \$10.00 each.

The G. H. Mazy Company

WHEN THE CALL COMES FOR THANKSGIVING

Will you be ready? It looks like it will be a great day and our reasons for Thanksgiving will be greater than ever. To make this day joyous arrange for your gatherings and be prepared. A pretty table graces every occasion and finishes every feast.

SOLDIER WRITES IN SHELL HOLE

Uses Helmet as Seat and Tells of Comrades Drying Feet Around Small Camp Fire.

Sitting on his helmet in a shell hole, with six comrades, drying their feet, Corp. J. L. Klein writes his mother, Mrs. Emma E. Klein, that he has been in two light gas attacks, but that they gave the Germans the laugh, for they were too quiet for them. Parts of his letter follow:

"While sitting here by the camp fire, drying my feet, will write a few lines. Can't write much for time will not permit. You will find enclosed three more pictures. The way we are going now it would be hard to say

MILLIONS USE IT TO STOP A COLD

"Pape's Cold Compound" ends severe colds or gripe in few hours.

Relief comes instantly. A dose taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose-running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.
